HLTH AGE 715: CRITICAL PERSECPTIVES IN HEALTH & SOCIETY
Fall 2018

Instructor: Dr. Lydia Kapiriri
Email: kapirir@mcmaster.ca
Lecture: Tuesdays 11:30 am – 2:20 pm

Office: KTH 236
Office Hours: Tuesdays 3:00-4:00 pm or by appointment

Course Description
This course provides students with an opportunity to explore different themes related to critical health studies. The main objective of the course is to discuss how health is socially and culturally constructed and how it is contested both within (and outside) the dominant biomedical and public health paradigms. The first part of the course explores fundamental theoretical topics around the nature, production, consequences and management of ill health and the various ways in which it can be understood and interpreted.

The second part will focus on current issues in health studies (based on the students’ interests) such as globalization and health and the related frameworks; the intersectionality of race, culture, gender, power and health, the politics of resource allocation in health; the politics of evidence. Students will be encouraged and facilitated to challenge the “mainstream” arguments and to connect their critical analytical skills with the central conceptual and practical issues related to health and healthcare.

Course Objectives
By the end of the course students should be able to:

- Articulate and discuss the key concepts in critical health studies
- Discuss the different ways through which health is constructed
- Assess the impact that the different constructions of health might have on the production, consequences and management of ill health
- Identify the factors; individual, societal or global; policy or cultural that influence/impact people’s experiences on health or illness
- Understand critical issues related to the formal health care system such as resource allocation
- Conduct a critical appraisal of the health literature, understanding the politics of evidence
- Understand and discuss the implications of the above for planning in health and healthcare

Required Materials and Texts
2. Additional readings posted under the respective weeks

Class Format
We will use traditional methods such as lectures and seminars. Lectures will be a minimal part of this course and will be used to highlight the key points related to the
topic of the day. In order to address the learning objectives, we need to do a lot of reading and we will have to make certain that our discussions are organized and focused well so that we understand the readings. For these reasons, there is emphasis on student leadership of the seminar discussions and on participation in the seminars.

**Course Evaluation – Overview**

1. Critical reflection summaries (20%)
2. Written assignment (20%)
3. Student led presentations and discussions (20%)
4. Final Paper or project (40%)

**Course Evaluation – Details**

**Critical reflection summaries (20%)**

This is a seminar based course where all students are expected to read the required material and come ready to contribute to the class discussions. To facilitate this, each student will be required to complete a total of 5 critical reflection summaries based on the week’s readings (students will decide on the weeks for which they want to complete a reflection). In these 2 pg. summaries, in addition to summarizing the key concepts from the readings, students will critically reflect on the readings using the critical reflection approaches learnt in Week 2 and 3. Each of the reflections should also identify one or two issues or questions in the readings that are important and merit more discussion and that you would like to be addressed. *Formulate these as questions.* These might be discussed in class, time permitting.

**Written Assignment I (20%), due October 16, 2018**

This assignment will enable students to apply any of the critical analysis approaches (Week 2) to critically analyze the different perspectives on health (Week 3). Based on the literature and their experiences, students will choose one perspective (which they find most convincing) from the three perspectives of health covered; they will expound on the perspective, based on clear critical analysis method(s). They will also discuss what was convincing about that perspective.

Page limit: 6-8 double spaced pages.

**Student led discussions and reflection (20%)**

1. Seminar facilitation (10%)

   Students (sometimes working in a pair with another student) will select a seminar topic of particular interest. Based on the selected topic, they will prepare and lead a discussion and prepare a short written paper. There are 5 possible topics and classes to choose from. For this assignment, the respective student(s) will:
- Identify one additional source of information relevant to the topic (this can either be a video clip, an additional paper, or a book chapter)
- Prepare a 30 minutes presentation based on the provided readings, in addition to the one identified in a) above
- Present an overview of the main arguments/themes in all the material, making sure that you provide a balanced perspective of the key issues to be discussed.
- This will be followed by a structured (30 min.) discussion led by the student(s) on the topic (discussion may be facilitated using a set of questions, key issues/concepts).

(Criteria for marking the presentation: relevance of added material, evidence of understanding of the readings linked to this session, clarity of presentation, ability to lead a discussion, ability to summarize the key points raised in the discussion and organize them succinctly.)

2. Critical Reflection paper (10%)
   After the class, the facilitators will develop a short paper (4-6 double spaced pages) reflecting on the seminar topic as well as their facilitation experience. The reflection should be guided by a critical reflection lens.

Final Paper or Project (40%), due December 4, 2018
The final paper presents the students with an opportunity to apply their learning to a real world problem. Based on the available evidence (The course material and at least 10 additional references); Students will have 2 options:

Option 1) Students will choose a contemporary health issue they are interested in and will apply a critical lens to discuss the conceptualization of the health problem in the main stream literature and using examples, discuss the consequences of using the described perspective. They will then discuss an alternative/ complimentary perspective and discuss the contributions the proposed conceptualization may have with regard to our understanding of the identified health issue.

Option 2) Students will identify a health program they are interested in. They will critically analyze; from their understanding of the program; the perspective(s) they think influenced the conceptualization of the health program. Critically analyze the consequences that might be associated with using that perspective in program development; propose and discuss an alternative/ complimentary perspective and discuss the contributions the proposed conceptualization may make with regard to designing the health program.
Weekly Course Schedule and Required Readings

Week 1 (September 11th)

Course overview
Readings: Background reading for the course:

Professional experience, Academic study and health

Notes: (No classes—individual assignment on Avenue)

Week 2 (September 18th)

Critical Analysis and Reflection in Health Studies

Review of Week 1 Assignment

Readings:

Week 3 (September 25th)

Critical Perspectives on Health: The Nature and Value of Health

Readings:

   *Journal of Epidemiology and Community Health, 41*, 281-284.

   (Additional readings may be provided)

**Week 4 (October 2nd)**

**Critical Perspectives on Health: The production of health**

**Readings:**

**Week 5 (October 8th – 12th)**

**Break - Fall Reading Week**

**Week 6 (October 16th)**

**Frameworks for defining health and illness and its determinants**

**Readings:**

Notes: **Assignment 1 due in class**

**Part II: Critical perspectives on selected issues in Health Studies**

**Week 7 (October 23rd)**

Critical analysis of the health system “tools”: The economics of Health care and Resource Allocation (Guest speaker)

Readings:

2. Daniel and Sabin (2002) Shall we learn to share resources fairly? Pgs 149- 174

(Additional readings may be recommended)

**Week 8 (October 30th)**

Critical analysis of the health system “tools”: Evidence and its politics

Readings:

Setting for Health programs relevant to Low income countries? A qualitative study. https://doi.org/10.1332/174426416X14636037877986

Week 9 (November 6th)
The medicalization of Health and the politics of the health system
Readings:

Week 10 (November 13th)
Culture and Health
Readings:

Week 11 (November 20th)
The political economy of disease epidemics (Guest Speaker)
Readings:

2. Adam Kamradt-Scott. The politics of medicine and the global Governance of pandemic influenza. Int J Health Serv January 2013 vol. 43 no. 1 105-121

Week 12 (November 27th)
Presentation and discussion of Final Project, and any topic of interest to the group such as Globalization and Health
Readings:

Week 13 (December 4th)
Final Paper due

Course Policies
Submission of Assignments
You should adhere to the following criteria for assignment preparation:

1. All assignments must include a title page with all relevant course information, adhere to the page limits specified, be formatted with 12 pt. font and standard margins, and be stapled;
2. The citations and references in all assignments (if applicable) must use APA style.

Details of each written assignment will be discussed in class.

Grades
Grades will be based on the McMaster University grading scale:

<table>
<thead>
<tr>
<th>MARK</th>
<th>GRADE</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-100</td>
<td>A+</td>
</tr>
<tr>
<td>85-90</td>
<td>A</td>
</tr>
<tr>
<td>80-84</td>
<td>A-</td>
</tr>
<tr>
<td>77-79</td>
<td>B+</td>
</tr>
<tr>
<td>73-76</td>
<td>B</td>
</tr>
<tr>
<td>70-72</td>
<td>B-</td>
</tr>
<tr>
<td>0-69</td>
<td>F</td>
</tr>
</tbody>
</table>

Late Assignments
DEADLINES ARE FIRM. Assignments are to be submitted in class on, or before, the due date indicated. All assignments must be completed in order to pass the course. A 3% reduction will be applied each day (i.e., Monday - Sunday) after the due date. Weekends will be treated as one day late. Assignments that are not submitted within a week after the due date will automatically receive a grade of zero. Late assignments should be submitted to the Department of Health, Aging & Society (KTH/226) where they will be date/time stamped.

Absences, Missed Work, Illness
Please note that no extensions will be permitted for reasons other than a documented illness. If you are unable to hand-in a paper because of illness, please consult with the course instructor.

Avenue to Learn
In this course we will be using Avenue to Learn. Students should be aware that, when they access the electronic components of this course, private information such as first
and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in this course will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.

University Policies

Academic Integrity Statement
You are expected to exhibit honesty and use ethical behavior in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behavior can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: “Grade of F assigned for academic dishonesty”), and/or suspension or expulsion from the university.

It is your responsibility to understand what constitutes academic dishonesty. For information on the various types of academic dishonesty please refer to the Academic Integrity Policy, located at www.mcmaster.ca/academicintegrity.

The following illustrates only three forms of academic dishonesty:

1. Plagiarism, e.g. the submission of work that is not one’s own or for which other credit has been obtained.
2. Improper collaboration in group work.
3. Copying or using unauthorized aids in tests and examinations.

Academic Accommodation of Students with Disabilities
Students with disabilities who require academic accommodation must contact Student Accessibility Services (SAS) to make arrangements with a Program Coordinator. Student Accessibility Services can be contacted by phone 905-525-9140 ext. 28652 or e-mail sas@mcmaster.ca. For further information, consult McMaster University’s Academic Accommodation of Students with Disabilities policy.

Academic Accommodation for Religious, Indigenous or Spiritual Observances (RISO)
Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the RISO policy. Students requiring a RISO accommodation should submit their request to their Faculty Office normally within 10 working days of the beginning of term in which they anticipate a need for accommodation or to the Registrar’s Office prior to their examinations. Students
should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

Please review the RISO information for students in the Faculty of Social Sciences about how to request accommodation.

**Faculty of Social Sciences E-mail Communication Policy**

Effective September 1, 2010, it is the policy of the Faculty of Social Sciences that all e-mail communication sent from students to instructors (including TAs), and from students to staff, must originate from the student’s own McMaster University e-mail account. This policy protects confidentiality and confirms the identity of the student. It is the student’s responsibility to ensure that communication is sent to the university from a McMaster account. If an instructor becomes aware that a communication has come from an alternate address, the instructor may not reply at his or her discretion.

**Course Modification**

The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check his/her McMaster email and course websites weekly during the term and to note any changes.

**Extreme Circumstances**

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, Avenue to Learn and/or McMaster email.
