Course Description

This course is concerned with the way that social inequity structured into cities affects health and what can be done about it. It uses a social determinants of health / health inequalities framework to analyze the problem of urban health inequalities. It is now well-established that people of lower social and economic status experience poorer health across a wide range of diseases and health conditions. These inequalities in health are large and avoidable, however, the solutions are complex and still under-developed. People of lower socio-economic status also tend to be clustered into similar parts of the city, which magnifies their disadvantage, but this too is avoidable.

The course begins by building up students’ knowledge about the frameworks used to analyze health inequalities and structural inequality within cities. Evaluation includes leading class discussions, writing summaries and critical questions, a knowledge mobilization assignment, a book review, and a major paper. Students will be challenged to critically examine issues raised in the course and understand the core principles covered.

Course Objectives

By the end of the course students should be able to:

- Describe health inequalities and social determinants of health (SDOH) frameworks
- Analyze the underlying political and economic causes of inequality in cities
- Apply frameworks on health inequalities and SDOH to problems of urban health inequalities
- Communicate health inequalities in cities according to SDOH and urban inequality perspectives
- Describe how different policy sectors / levels of government affect urban health inequalities

Required Materials and Texts

- All readings are either journal publications to which you have access through the library or are public reports. The only material students may have to purchase is a book to review.

Class Format

This is an interactive seminar-style course held on Tuesdays from 2:30 – 5:20 pm.

Seminar-style course format requires active participation, attendance and contribution from all members of the class. There will generally be three components to each class
(with some exceptions), roughly one hour each: 1) introductory remarks / lecture; 2) student-led discussion based on summaries and critical questions; 3) mixed bag – may include videos, guest speakers, field activities, additional lecture material based on learning needs identified as the course unfolds.

Course Evaluation – Overview

1. Class attendance and participation (weekly) – 10%
2. Weekly summaries (choose 2 dates) – 15%
3. Urban health inequality book review - 20%, October 22nd
4. Knowledge exchange activity – 20%, Tuesday, November 12th
5. Critical analysis paper – 35%, Tuesday, December 3rd

Course Evaluation – Details

1) CLASS ATTENDANCE AND PARTICIPATION (WEEKLY) – 10%
   • Students’ attendance will be recorded at the beginning of each class. Student participation will be evaluated based on quality engagement in class discussions and in small group activities throughout the term. Students will also be asked to

2) WEEKLY SUMMARIES (CHOOSE 2 DATES) – 15%
   • Students are required to submit two ‘summary of readings’ assignments. For most students, one of these summaries will be submitted when they present/lead the readings. In addition, they will also choose one other day when they are not leading the discussion to submit a summary
   • Each summary should be between 500 and 750 words (2-3 pages double-spaced) and should cover all of the readings for that week. Students should demonstrate that they: 1) have read the articles; 2) can identify some of the salient points for understanding urban health inequalities; 3) can synthesize across the articles (compare/contrast, identify things that are complimentary); and 4) can identify 2-3 critical questions about urban inequality that are raised by the articles (or that you can think of yourself, stimulated by a perspective in the articles).
   • Students must submit their summaries on the day of the discussion into the appropriate dropbox on Avenue. Together, these two summaries are worth a total of 15% of the final grade.
   • The final deadline for all summaries to be submitted is Tuesday, December 3rd, 2019.

3) URBAN HEALTH INEQUALITY BOOK REVIEW – 20%, OCTOBER 22ND
   • In this assignment students will read a book related to Health and the Unfairly Structured City and write a report on that book. The book will be selected from a list of available books relevant to the social and economic determinants of health
and unfairly structured cities. There is a wide variety of books to choose from: some are more scholarly, and some are more journalistic. Reports should be limited to 6-8 pages, typed, double-spaced (maximum 2,000 words) and be properly referenced using APA formatting.

- A full overview of the assignment is provided on the ‘Book Review Assignment’ handout, available on Avenue. This assignment will be discussed in-detail during class on Tuesday, September 10th.

4) KNOWLEDGE EXCHANGE ACTIVITY – 20%, NOVEMBER 12TH

- In this assignment students will confront the tensions related to the communication of urban health inequity by writing a report that recommends a strategy to the City of Hamilton Public Health Services. The report should be written in the voice of a consultant to the City who has been retained to give advice on how to effectively communicate urban health inequity in Hamilton. Reports should be limited to 5-6 pages, typed, double-spaced (maximum 1,500 words) and be properly referenced using APA formatting.

- A full overview of the assignment is provided on the ‘Knowledge Mobilization Assignment’ handout, available on Avenue. This assignment will be discussed in-detail during class on Tuesday, September 24th.

5) CRITICAL ANALYSIS PAPER – 35%, DECEMBER 3RD

- In this assignment students will write a term paper on some topic relevant to health and the unfairly structured city. The topic could be about a particular empirical pattern of health inequity, policy or program interventions to improve health equity, comparing different theoretical/conceptual perspectives on health inequity or some other topic. Papers should be limited to 10-15 pages, typed, double-spaced (maximum 7,500 words) and properly referenced using APA formatting.

- A full overview of the assignment is provided on the ‘Term Paper Assignment’ handout, available on Avenue. This assignment will be discussed in-detail during class on Tuesday, October 22nd.

Weekly Course Schedule and Required Readings

PART A) INTRODUCTION TO THE COURSE

Week 1 (September 3)

Introduction

Recommended readings:

PART B) CONCEPTUAL UNDERPINNINGS – HEALTH INEQUALITIES IN CITIES

Week 2 (Tuesday, September 10)
Health inequalities & the social determinants of health

Required readings:

Week 3 (Tuesday, September 17)
Health & the unfairly structured city

Required readings:

PART C) UNDERSTANDING THE ROOTS OF URBAN INEQUALITY

Week 4 (Tuesday, September 24)
Cities as engines of inequality
Required readings:

**PART D) UNDERSTANDING & ACTING ON HEALTH & UNFAIRLY STRUCTURED CITIES**

Week 5 (Tuesday, October 1)

**Housing, urban inequality and health**

Required readings:

Week 6 (Tuesday, October 8)

**Neighbourhood, community & health**

Required readings:

Week 7 (Tuesday, October 15)
No class – Fall Reading Break

Week 8 (Tuesday, October 22)
Income inequality, cities and population health

Required readings:

Recommended readings:

Week 9 (Tuesday, October 29)
Ethnicity, race and urban health inequalities

Required readings:

Week 10 (Tuesday, November 5)
Indigenous People, urban inequality and health

Required readings:

**Week 11 (Tuesday, November 12)**

Catch up week

**Required readings:** None

**Week 12 (Tuesday, November 19)**

Healthy child development & urban inequality

**Required readings:**

**Week 13 (Tuesday, November 26)**

Mental illness and urban inequality

**Required readings:**

Week 14 (Tuesday, December 3)
Final class & wrap up discussion

Required readings: None.

Course Policies

Submission of Assignments
Please submit your assignments into the appropriate Avenue to Learn dropbox by 11:59 pm on the due date. Emailed assignments will not be accepted.

Your assignments should be typed and double-spaced in either 10- or 12-point Times New Roman, Calibri or Arial font.

Grades
Grades will be based on the McMaster University grading scale:

<table>
<thead>
<tr>
<th>MARK</th>
<th>GRADE</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-100</td>
<td>A+</td>
</tr>
<tr>
<td>85-90</td>
<td>A</td>
</tr>
<tr>
<td>80-84</td>
<td>A-</td>
</tr>
<tr>
<td>77-79</td>
<td>B+</td>
</tr>
<tr>
<td>73-76</td>
<td>B</td>
</tr>
<tr>
<td>70-72</td>
<td>B-</td>
</tr>
<tr>
<td>67-69</td>
<td>C+</td>
</tr>
<tr>
<td>63-66</td>
<td>C</td>
</tr>
<tr>
<td>60-62</td>
<td>C-</td>
</tr>
<tr>
<td>57-59</td>

</tr>
<tr>
<td>53-56</td>
<td>D</td>
</tr>
<tr>
<td>50-52</td>
<td>D-</td>
</tr>
<tr>
<td>0-49</td>
<td>F</td>
</tr>
</tbody>
</table>
**Late Assignments**
The due dates for assignments are fixed and non-negotiable. There will be a deduction of 10% per day for all late assignments, including weekends. If an assignment is due on Monday, but handed in at or after 12:00 am on Tuesday, the deduction will be 10% for that day. Deductions are calculated per day, not per 24-hour period. No assignments will be accepted 3 days after the original due date. Please refer to assignment instructions for details. Any late assignments will receive a grade only, no comments will be provided.

**Review of Marks**
Assignments are marked fairly and carefully; however, in the event that a student disagrees with their mark, the following procedure will be followed:

1) The student must write a detailed one-page note (hard copy only; emails will not be accepted) outlining the reason for the review of the mark. This note must be attached to the original assignment and handed in to the instructor;
2) The instructor will review the request and review the original assignment and provide the student with written feedback;
3) Students must not submit a request for review earlier than 1 week after the paper/exams are returned and no later than 2 weeks after;
4) Please not that upon re-review, there is a chance that the new grade may be lower than the original grade received.

**Requests for Relief for Missed Academic Term Work**
**McMaster Student Absence Form (MSAF)**
In the event of an absence for medical or other reasons, students should review and follow the Academic Regulation in the Undergraduate Calendar “Requests for Relief for Missed Academic Term Work”.

**Avenue to Learn**
In this course we will be using Avenue to Learn. Students should be aware that, when they access the electronic components of this course, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in this course will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.

**Authenticity / Plagiarism Detection**
All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, other software, etc.).
Course Modification
The instructor reserves the right to modify elements of the course during the term. If any modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check his/her McMaster email and course websites weekly during the term and to note any changes.

University Policies

Academic Integrity Statement
You are expected to exhibit honesty and use ethical behavior in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behavior can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: “Grade of F assigned for academic dishonesty”), and/or suspension or expulsion from the university.

It is your responsibility to understand what constitutes academic dishonesty. For information on the various types of academic dishonesty please refer to the Academic Integrity Policy, located at www.mcmaster.ca/academicintegrity.

The following illustrates only three forms of academic dishonesty:

- Plagiarism, e.g. the submission of work that is not one’s own or for which credit has been obtained.
- Improper collaboration in group work.
- Copying or using unauthorized aids in tests and examinations.

Academic Accommodation of Students with Disabilities
Students who require academic accommodation must contact Student Accessibility Services (SAS) to make arrangements with a Program Coordinator. Academic accommodations must be arranged for each term of study. Student Accessibility Services can be contacted by phone 905-525-9140 ext. 28652 or e-mail sas@mcmaster.ca. For further information, consult McMaster University’s Academic Accommodation of Students with Disabilities policy.

If you require this course outline in an alternate/accessible format, please contact the Department of Health, Aging & Society (ext. 27227 | e-mail: hasdept@mcmaster.ca).
Academic Accommodation for Religious, Indigenous or Spiritual Observances (RISO)

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the RISO policy. Students requiring a RISO accommodation should submit their request to their Faculty Office normally within 10 working days of the beginning of term in which they anticipate a need for accommodation or to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

Faculty of Social Sciences E-mail Communication Policy

Effective September 1, 2010, it is the policy of the Faculty of Social Sciences that all e-mail communication sent from students to instructors (including TAs), and from students to staff, must originate from the student's own McMaster University e-mail account. This policy protects confidentiality and confirms the identity of the student. It is the student's responsibility to ensure that communication is sent to the university from a McMaster account. If an instructor becomes aware that a communication has come from an alternate address, the instructor may not reply at his or her discretion.

Extreme Circumstances

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email.
